

David E. Gombas, Ph.D.
Vice President, Technical Services
United Fresh Produce Association

Dr. David Gombas currently serves as the Vice President of Scientific and Technical Affairs at United Fresh Produce Association. Dr. Gombas provides technical, food safety, regulatory and public policy assistance for the fresh and fresh-cut produce industry.

Previously, Dr. Gombas was with the National Food Processors Association (NFPA), where he served as Vice President of NFPA's laboratories for microbiology, chemistry and processing research and technical assistance in Washington D.C. During this period, he developed and delivered various training courses, co-authoring the manual *HACCP Verification and Validation* along with several publications on HACCP design and implementation. Later, Dr. Gombas served as Vice President of NFPA-SAFE, the Association's auditing program for the food industry.

Prior to working at NFPA, Dr. Gombas served in Microbiology and Food Safety departments at Campbell Soup Company and Kraft Foods. In 1993, he was Research Professor of Food Safety at the National Center for Food Safety and Technology, working with the U.S. Food and Drug Administration to develop HACCP training courses for FDA investigators.

Dr. Gombas received his Ph.D. in food microbiology at University of Massachusetts, and an M.S. and B.S in food science from Rutgers University and MIT respectively.
