

JEFFREY T. BARACH, Ph.D.

Vice-President and Center Director, Scientific and Regulatory Affairs

GMA

Washington, D.C.

Dr. Barach is the Vice-President and Center Director for GMA's Center for Technical and Laboratory Services (CTLS). He is a food scientist and a microbiologist with a particular interest in new technologies as related to food processing, preservation and new food safety programs.

In his current position, his areas of responsibility include planning and development of projects and programs for CTLS on microbiological safety of foods, food processing technologies, chemical residues in foods, nutritional composition and health aspects of foods. Dr. Barach joined GMA (formally GMA/FPA) in 1990 as head of the Eastern Research Laboratory in Washington D.C. from his former position as Director of Research - Biotechnology Division of Miles, Inc. His education includes receiving his M.S. and Ph.D. from North Carolina State University and his undergraduate degree from the University of North Carolina. Dr. Barach's current position, initiated in 2005, includes scientific communication and ensuring food industry policy is developed based on sound science. Dr. Barach is also a lecturer and educator in food safety programs such as food sanitation and HACCP.
